

Below are **estimates** to ship our perishable items, including cost of styrofoam cooler, handling, dry ice/ice packs, and UPS ground shipping fees (for anywhere in the 2-4 day shipping areas). Cost of product to put in the cooler is not included below. Amount of meat that fits in the coolers may vary depending on how well it packs in the cooler.

Although we will do what we can to get packages shipped out on time, we cannot guarantee that packages will not be delayed due to weather, or unforeseen circumstance that UPS may face.
